

Profile

Egatec A/S is an engineering company that develops and produces reliable and efficient automation and robot solutions for the industry. Egatec Packaging Int. was founded as a subsidiary of Egatec A/S in 2016.

Where the core business of Egatec A/S is customized automation solutions, the main focus of Egatec Packaging Int. are modular standard solutions within packaging, palletizing and internal transport for the end-of-line. Whether it is stand-alone or turn-key solutions, our focus is on producing innovative and high quality solutions for our customers which help to ensure the highest possible optimization of the production processes.

We offer complete automation solutions, both nationally and internationally, where everything from design and construction to production and testing takes place in Denmark. Customer-focused and productive cooperation with our customers is of great importance to us.

The customer list includes Arla, Jakobsens, Mac Baren Tobacco Company, Tempur and many others.

November 1, 2016 Egatec A/S became exclusive distributor of Comau robotics in Denmark, Norway and Iceland.

July 1, 2020 Egatec A/S became exclusive distributor of Cassioli robotics in Scandinavia and Baltic.

COMPANY PROFILE

Values

- We must be led by a team where the emphasis lies firmly on professional competence, human qualities and mutual good chemistry
- We must be an inspiring workplace where employees openly and positively can address and solve the tasks
- It is management's duty to ensure a good and positive environment and make work enjoyable. Employees should be "proud" of their workplace
- Management must stand as an exponent of a rational and high business ethics and cherish (and expand) the good reputation
- Security for academically talented and motivated employees must be ensured by a future-oriented business concept and forward-looking product portfolio
- A continuous innovative approach to competition enhancing measures combined with a targeted market diversification, to ensure our continued growth
